

RYUET OLSEN

ICT & MEDIA DESIGN STUDENT

PROFILE

I am a 23-year-old ICT & Media Design student that is passionate about front-end development and user-centered design. I have a background in HTML, CSS, and JavaScript, and I'm currently learning React for building modern, responsive websites. Though my early experiences in graphic design, editing, and photography influenced my creative style, my ultimate goal is to become a top-tier web developer.
